

# Year 1 Spring Term 2 Feb - March

## The Adventure Of The Green Ship

The focus of this topic will come from the book *The Green Ship* by Quentin Blake. In the story two children take an imaginary journey around the world. This will provide the opportunity to look at different countries around the world and compare hot and cold places. They will use maps and atlases to locate the countries of the United Kingdom, name some towns and cities, and learn about the four compass points. In the places they visit they will learn how to draw different animals and explore ways to print animal patterns. This will then lead into naming, describing and comparing a range of animals and being able to classify them into carnivores, herbivores and omnivores. Then they will choose an animal to create an information sheet about on the APP Pic Collage. The Stewardship of Catholic Social Teaching will be addressed by reflecting on how God made all animals and we have a duty to care and look after them.

### Computing To Use At Home

Top Marks Hit The Button  
Practice number bonds to 10, 20  
and Doubles to 10  
BBC Bitesize KS1 Animals  
BBC Bitesize Ks1 Geography

### English

- 1, Daily phonics lesson in groups.
- 2, Spelling of the key Year 1 words—  
Common Exception Words.
- 3, To write simple sentences and short  
narratives.
- 4, Look at features of non-fiction books  
and use these to find facts,

### Maths

Finding half and quarter of shapes and  
numbers.  
Exploring capacity by measuring in  
non standard and standard units.  
Learning about time and how it can  
measured.  
Naming and comparing 2d / 3d  
shapes.
